

BURGAN'S BAD BOX.

A Slap in the Face From the Utah Commission.

THE POMPOUS FELLOW SQUASHED

The Riot Act Read to the Alleged Disciple of Blackstone—He Will Not Soon Forget It.

George H. Burgen, the pompous "attorney" who fills the position of deputy registrar at South Cottonwood, recently notified a qualified voter at that precinct that his right to vote had been challenged on the ground that he was a polygamist and aided and abetted polygamy. The person to whom this note was sent, did not let the matter drop, and Mr. Burgen probably thought, he would, but informed the Utah commission of the matter, and the result is that Mr. Burgen finds himself in very hot water. The commission yesterday administered the following stinging rebuke to Burgen:

George H. Burgen, Esq., deputy registrar, South Cottonwood precinct:

Dear Sir:—There has been shown to the commission a notice issued by you as registrar to a person registered as a voter in your precinct, to the effect that his right to vote is objected to on the ground that he is a polygamist and aids and abets polygamy.

If he is at present in polygamy, of course the objection should be sustained. Aiding and abetting polygamy is not made a cause for disfranchisement by any law the commission has knowledge of. In this case the party states that he had a plural wife, who died some twenty years ago, and that he has not lived in polygamy since.

If this statement be true, he comes within the definition of the law upon the subject, and is a legal voter, if otherwise qualified. The commission is at a loss to know what is meant by the phrase used in the notice—"Aids and abets polygamy." It is intended by that term to strike from the registration lists the names of men simply for the reason that they are members of the Mormon church, the commission desires to say emphatically that it cannot be made a party to any such action, and it hopes that none of its appointees will lend themselves to such a violation of the laws of the land. Yours respectfully,

G. L. GODFREY, Chairman.

P. S.—The commission desires to hear from you on the subject.

THE KING OF PAIN'S PARADE.

He Draws Only Eight Audiences and Very Little Attention.

The Acrobatic King of Pain, accompanied by a few mountebanks, the Great and Only Snake Charmer of Kalamazoo; and a few other genial spirits are still on their "trot" inaugurating a week or so ago. That their spirits have been dampened considerably, however, is evident from the reports received of the grand high jinks carnival which has attracted so little attention.

The motley crowd went out with a flourish—a very good flourish considering the size of the company; what there was lacking was furnished by the fertile and well-watered brains of the scribes on the Liberal organs. The Galacia, however, and scarce been a day on the train when they commenced to realize just how small potatoes they were and how few there were in a hill. It comes from what should be considered good authority, that most of the pilgrims were anxious to bolt the train when it returned to Salt Lake on its way from Logan, and that they would have done so had not the only snake charmer from Michigan got in his work, and induced them not to desert the sinking ship; informing them that such desertion would have a bad effect—and that the supplies aboard would not run out. He would give his personal guarantee as to that.

The Goodwin Pilgrim train is a fraud and a sham.

Whoever originated the idea conceived one of the greatest political blunders since the order to kill Frank Kimball was given in the Salt Lake theatre.

The "most unkindest" cut of all is the fact that the Pleasant Valley contingent should have been so shamefully neglected. Pleasant Valley, Pratt's Sliding, Hale's Sliding and other well-known resorts along the line of the Rio Grande Western did yeoman service for the Liberal cause during the municipal campaign in February last, and it is less than charity to pass them by in sullen silence. However, it may be that the Liberal leaders, having well-paid the P. V. contingent for its efforts, are of the opinion that accounts are squared.

Large and Enthusiastic.

People's party meetings are held nightly in the city and county. Last evening, the voters of Sugarhouse, the Fourteenth, Sixteenth and Seventeenth wards were addressed. Each meeting was well attended and the voters were more than enthusiastic.

In the Sixth Ward.

A political meeting was held in the Sixth ward last evening. The hall was filled and much interest appears to be taken there in the present campaign. Mr. Green presided and in a short address introduced as first speaker for the evening, David L. Murdoch. He took up for a theme the record of the Liberals made for themselves in their manipulation of registration matters, and the unfavorable position they are placed in by reason of the developments of the school election, which had been carried into the courts to the disadvantage and disaster of the Liberal party. The speaker showed that the methods adopted by the Liberal party to subvert the will of the majority to that of a faction were unrepentant in their nature and calculated to bring disgrace upon the party resorting to such practices.

The next speaker was Mr. Thomas Hall, who compared the position of the People's party to that of the Pilgrim Fathers, who laid the foundation of human rights and liberties in this free land of America, and showed that the Liberal party who were seeking to bring disfranchisement upon the people were in reality the enemies of the nation, by seeking to cast down the bulwarks of liberty that had cost so much effort to establish, and maintain. The speakers were frequently applauded and at the close a hearty vote of thanks was given them for their addresses.

People's Political Meetings.

Meetings in the interest of the People's party will be held as announced below, and the public are respectfully invited to attend them. Committeemen and other active members of the party are requested to circulate the news and do all that is in their power to secure large assemblies and arouse general interest. The speakers will please take notice of their appointments, as they will not probably receive any other notice.

In case of the inability of any speaker to attend, he should at once inform the secretary of the People's territorial central committee:

THE PULPIT AND THE STAGE.

Rev. F. M. Shroud, pastor United Brethren church, Blue Mound, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased and my physicians thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am sound and well, gaining 26 pounds in weight."

Arthur Love, manager Love's Funny Folks Combination, writes: "After a thorough trial and convincing evidence, I am confident Dr. King's New Discovery for Consumption beats 'em all, and cures when everything else fails. The greatest kindness I can do my many thousands of friends is to urge them to try it." Free trial bottles at A. C. Smith & Co.'s drug store. Regular sizes 50 cents and \$1.

Millions of Stray Letters.

The postoffice department at Washington has issued a notice calling public attention to the fact that over six million pieces of mail matter were sent to the dead letter office in the past year by reason of incorrect, illegible or deficient address, insufficient postage and insecure gumming. This is a daily average of over 20,000 pieces, the loss of which naturally must often cause great inconvenience to persons using the mails.

The greater portion of the matter referred to is not called for and is sent to the dead letter office unless the address of the sender is on the inclosure, or some clue to his whereabouts. Letters containing any inclosure of value are received and filed and are delivered upon proper identification. If they are not called for within two years they are sold at auction and the proceeds paid into the treasury.

Of the unclaimed and undelivered mail matter received at the dead letter office in the past year 28,000 contained money, amounting in all to \$49,642; 4,000 had inclosures of postal notes in small sums under \$5, aggregating \$3,900; 27,000 were found to contain drafts, checks, notes, commercial paper, etc., in the sum of \$1,471,871, while 48,000 contained paid and canceled obligations, receipts evidencing payments of money, deeds, mortgages and general miscellaneous papers.

Electricity Rampant.

Dr. F. P. Blodgett and wife, of Ansonia, Conn., had an odd experience with electricity the other day. After a heavy downpour of rain, during which there was only one flash of lightning, Mrs. Blodgett went into the kitchen to get a knife, which was placed over the sink between the water pipe and the wall. As her fingers touched it she was sent staggering away by a severe shock of electricity. She called her husband from his office and asked him to get the knife for her. He had all he could do to keep from falling to the floor.

In attempting to draw water from the pipe Dr. Blodgett received a severe shock, though a pipe in his office on the same floor was not affected in the least. Under the sink were kept the iron pots and kettles used in the kitchen. On opening the door of the sink sparks were seen jumping from one point to another with a loud noise. The utensils were removed with difficulty for fear of fire.

During the display Dr. Blodgett took up a cake of soap from an iron soap dish. He did not touch the iron, but he received a shock from the soap that made every nerve tingle, and the shock continued as long as he held the soap.—Ansonia Sentinel.

LUCK

Is a word which should have no place in any vocabulary. A man must have ability to succeed, and a medical preparation merit. There is no luck about Sarsaparilla. It was sure to succeed from the first, because it was good, and did all that was claimed for it.

NEURALGIA CAUSES MUCH INSANITY.

The highest medical authorities of Europe and America have recently decided that a large percentage of cases of insanity is caused by excruciating pains of neuralgia of the head and face. If any member

of your family suffers this tormentor, induce them to try Ballard's Snow Liniment. One application will afford immediate relief and you will soon be rid of a dangerous and tormenting disease. Ballard's Snow Liniment is the most penetrating liniment known. It positively cures rheumatism, lame back, contracted muscles, old sores, corns, bunions, etc. It penetrates and opens the pores, drawing the poisonous matter to the surface, restoring and promoting a natural circulation of the blood through the diseased parts.—11.

About Dog Bites.

It is safe to say, said a New York physician, that one cannot give what one does not have to give. The same is true of a dog. If he has not hydrophobia he cannot communicate it. So there is no reasonable cause for the fright displayed by some persons if they but get their skins broken by a dog whose health is perfect. Men who are in the habit of handling dogs think nothing of their bites. Dog fanciers and dog trainers are frequently bitten, and think nothing of it.

The men who handle fighting dogs pay scarcely any attention to dog bites unless they are severe, and then apply ordinary remedies. I myself have been several times bitten—not by mad dogs of course—and have suffered little or no discomfort. There are many things worse than the bite of a healthy dog. I will take it any time in preference to a bad burn or a cut with a rusty nail. A little common sense ought to be used in this as in other matters.—New York Mail and Express.

Yankee Ingenuity.

One of the busiest places in the Yankee nation is the patent office. The report of the commissioner shows that for the last fiscal year the applications beat the record. The total was 46,140, against 42,407 for the previous year. There were 25,907 patents granted, 1,332 trademarks registered and 304 labels registered, a total of 27,483, against 22,941 for the preceding year. The number awaiting action was 6,587, which shows that the office keeps pretty well up with its work, a fact that is the more to its credit because the appropriations for the office are notoriously inadequate.

Dry Goods Economist.

During King Humbert's late visit to Brescia, while visiting the manufactory of Signori Mussato and Cerasi, he perceived an old man decorated with the silver medal for military valor. The king but a him approach, and on learning that he had fought by his side against the Austrians in 1866, when the battalion of the Forty-ninth formed square and repulsed three charges of the Austrian cavalry, he shook hands heartily with him and took down his name.

Europe reports 233,000,000 bushels lacking in the average potato crops, and the wheat crops as being 80,000,000 bushels less than the annual consumption. Should these figures be but approximately true, they indicate a gravity in the situation that the coming year will very pertinently show.

A Mohammedan young woman has just closed her medical studies in Odessa with a brilliant examination. Her name is Kutiyaoff-Hassam. She is the first Mohammedan woman who has received an M. D. diploma, and the state has granted her special permission to practice her profession.

A watch for blind people has been invented in Switzerland. In the middle of every figure is a small peg which drops when the hour hand reaches the figure. The owner feels that the peg is down, and counts back to 12 to determine the hour.
